#MYCPSORY

Project: Classroom provides support to the most vital component of our service to the community: our teachers! Education has changed since I started working as a teacher over 20 years ago. Today, teachers serve as educators, social workers, accountants, project managers, grant writers, community leaders and sometimes parents to their students. These new roles make teaching a challenging and stressful profession.

Project: Classroom allows us to build the capacity of our teachers to take on these community roles by providing support and resources for their learning environment. This program builds morale and gives our teachers a caring and loving experience which begins at the reveal and continues every time they see their wishes being used in their classrooms throughout the school year and in years to come!
